

Florida Tech ASCE Chapter News

June 2011

“General Chapter”

John Chandler
FI Tech ASCE Historian

I would like to thank all the sponsors that helped this year's student chapter of ASCE go to Nationals. The University of Evansville did an excellent job hosting the competition and we are looking forward to attending next years competition at the University of Nevada, Reno. Over the last six days, we have travelled across five states, bunked together, ate together, and had fun on the long journey. The competition comprised of a visual display, swamp test, oral presentation, and finally five canoe races.

The school was well represented at the competition with the spirit of the southeastern conference motivating the team. Among the participating schools were Cal Poly San Luis Obispo, Cal Poly Pomona, Michigan Tech, Rutgers, Universite Laval, University of California- Berkely, University of Nevada-Reno, University of Pittsburgh at Johnstown and 15 other schools from around the nation and Canada. Florida Institute of Technology was the most enthusiastic school present at the competition. I am proud to call myself a member of the FI Tech Concrete Canoe.

Both Concrete Canoe and Steal Bridge are relaxing for a little bit. Steal Bridge is currently waiting on a new set of rules to be published and Concrete Canoe will be making practice mixes over summer. I hope everyone has a great summer and is ready for the upcoming fall semester.

If you would like to follow the FI Tech ASCE Student Chapter on a day to day basis or would like to see pictures from our adventures to competitions and abroad please friend us on facebook by following this link:
